Truck Route

IMPORTANT!!!!!

When entering the facility there can only be two trucks up by the scale at a time, one inside the shed unloading and one outside the shed. Any other vehicles here to unload must stop at the area where the red stop sign is on this map. When the truck unloading is done and has passed the waiting vehicle at the red stop sign are the next truck in line may proceed to the outside of the shed. The next vehicle in line must then stop at the red stop sign area and wait for the vehicle unloading to finish and leave the facility.

PLEASE DRIVE SLOWLY ON TO AND OFF OF THE SCALE. JERKING THE VEHICLE ON THE SCALE CAN DAMAGE THE LOAD CELLS.
